

Rahul Sharma

MCA Student | Software Developer | Cybersecurity Enthusiast

Jamshedpur, Jharkhand, India | Email: rahul.sharma.mca@example.com | GitHub: github.com/rahulsharma-dev

PROFESSIONAL SUMMARY

MCA student at Srinath University, Jamshedpur, passionate about software development, cybersecurity, programming, and building practical technology applications. Experienced in Python, Flask, Java, C/C++, and Linux systems, with an emphasis on disciplined problem solving, device automation (ADB), and hands-on security laboratories.

EDUCATION

MCA (Master of Computer Applications)

Srinath University, Jamshedpur, Jharkhand

Currently Pursuing

BCA (Bachelor of Computer Applications)

Jamshedpur Co-operative College (Affiliated with Kolhan University), Jamshedpur, Jharkhand

Completed

TECHNICAL SKILLS

Programming: C, C++, Java, Python

Web Development: HTML, CSS, JavaScript, Flask

Database: MySQL, MariaDB

Tools & Technologies: Git, GitHub, VS Code, Linux, Termux, Android Debug Bridge (ADB)

Cybersecurity: Networking Fundamentals, Linux Fundamentals, Web Security Fundamentals, Security Testing Concepts, TryHackMe Learning

TECHNICAL PROJECTS

Wireless Phone Controller

Python · ADB · scrapy · Windows · Subprocess API

A Python-based desktop utility that harnesses Android Debug Bridge (ADB) and scrapy to control, navigate, and mirror an Android device screen wirelessly from a computer. Eliminates the need for continuous physical cable tethering by establishing authenticated TCP/IP connections.

- Wireless Android connection over local subnet
- Low-latency device control and input forwarding
- Real-time screen mirroring powered by scrapy

Student Attendance Management System

Python · Flask · HTML · CSS · SQLite · Jinja2

A web-based attendance management project designed to streamline student registration, daily classroom attendance recording, and periodic attendance status reporting. Features persistent relational storage and an intuitive web interface for teachers and administrators.

- Student record management and section assignment
- Daily attendance recording with quick status toggles (Present/Absent)
- Attendance summary reports and percentage tracking

Student Management System

Java · File Handling · Serialization · OOP Architecture · Java Collections

A robust Java-based application engineered for managing student academic records. Implements object serialization and reliable file handling to ensure persistent record storage between execution sessions without external server dependencies.

- Add new student profiles with validation
- Persistent record storage via Java Object Serialization
- Fast record retrieval by student ID or name search

PROFESSIONAL EXPERIENCE

LR & Trip Department

Current Role

Saizar Enterprises Pvt. Ltd., Jamshedpur, Jharkhand

Working within the operational LR (Lorry Receipt) and Trip Department, contributing to logistics coordination, trip dispatch verification, and departmental documentation workflows.
